

OR35 **NEW**
Discover this concentration
of OROS Teamwork technology

NEW **OR35**
10 CHANNEL TEAMWORK INSTRUMENT

- 8 Universal Inputs
- 2 Ext Sync. (tachs) / 2 Dynamic Inputs
- Up to 40 V, ICP/AC/DC/FLOAT
- CAN Bus, XPod Slot
- Cascadable
- Wi-Fi, LCD Control Panel, Stand-Alone Recording
- Long Life Battery + 2 Battery Xpod Slots
- 2 ForceDSPs
- On-Board Solid State Disc

Meet the Industry Challenges

RELIABILITY

LASTING QUALITY

- Long-term hardware and software compatibility
- Continuity in the operations

HIGH TEST PRODUCTIVITY

SAVING COSTS

- Scalable
- Simple upgradeability

Purchasing Manager

*With OROS, I'm assured of a **long term partnership** regarding equipment as well as services. The availability of **systems always up to date guarantees the productivity** of our teams.*

Test Center Manager

*My everyday concern is to provide to my customers **on-time and valid measurements within the planned costs**. With the OROS Teamwork technology we found a solid basis to get always **ready instrumentation and easy to share data**.*

Vibration Engineer

*When I get one chance to capture my turbine start-up, my instrument operation must be **smooth**. And my **OROS fulfills that requirement!***

Maximize Operational Efficiency

MIX & MATCH

- Hardware and conditioners
- Software and licenses

SHARE, ARCHIVE AND MINE

- Data, setup and meta-data

COMPREHENSIVE

- Unique interface and format
- Save training time
- Get the results faster

CUSTOM SERVICES

- Fleet management: hardware and software
- Assistance in your measurements

Teamwork Instruments

NOISE & VIBRATION ANALYZERS

- 4, 10, 16, 32 channels
- Cascadable up to 1000+ channels
- Portable and rugged
- Real-time, multi-analysis

- Accurate
- Distributed configuration

APPLICATIONS

- Rotating
- Structural dynamics
- Acoustics
